THE BRAIN, MIND & BODY IN CHRONIC PELVIC PAIN. FROM THE NEUROMUSCULAR SYSTEM TO THE NEUROMATRIX

Speakers: *Dr. Paul Hodges, PhD MedDr DSc BPhy(Hons) FACP*
Dr. Lorimer Moseley, PhD, B.APP.SC. (Phy) (Hons)

Join us October 12 – 13 2012 for an *Advanced Clinical Seminar* featuring 2 days with *Dr. Paul Hodges and Dr. Lorimer Moseley* as they present the latest advances and research in chronic pain disorders. Special consideration is given to the complexity of chronic pelvic pain and the contribution of the brain in sensory and motor dysfunction.

Dr Lorimer Moseley is Professor of Clinical Neurosciences and University of South Australia's inaugural Chair in Physiotherapy where he works as a clinician and researcher with a special interest in pain and brain sciences. He has published over 75 peer reviewed papers, book chapters and has authored 2 books (Explain Pain and Painful Yarns). He is an Associate Editor of PAIN and the British Journal of Sports Medicine. Lorimer runs the Body in Mind research group www.bodyinmind.org based at The Sansom Institute for Health Research at the University of South Australia in Adelaide and Neuroscience Research Australia in Sydney.

Dr Paul Hodges is Professor and Senior Principal Research Fellow funded by the National Health and Medical Research Council (NHMRC) of Australia and the Director of the NHMRC Centre for Clinical Research Excellence in Spinal Pain, Injury and Health (CCRE SPINE). Paul has 3 doctorates; one in physiotherapy and 2 in neuroscience. His research blends these skills to understand pain and control of movement. The large multidisciplinary research centre that Prof Hodges leads focuses on understanding pain physiology, and the development and testing of novel treatments. He has received numerous international research awards, published >200 scientific papers, has ongoing collaborations throughout the world, and has received more than \$US20 million in research funds.

The seminar continues October 14th with a unique opportunity to explore the clinical application of pain science for the complex patient. Dr. Lorimer Moseley will present an interactive day of practical application, collaborative approaches and discussion of future clinical research.

SOWH Section Members: \$550

APTA Members (non-section): \$600

Non-APTA members: \$650
